# LUCKY GARDENS

R. F. D. No. 2 KNOX, INDIANA

## DAHLIA DIVISIONS

### LEADING COMMERCIAL CUT FLOWER AND EXHIBITION TYPE VARIETIES

We have been growing Dahlias for over ten years and grow nothing but the best. Our stock is good because it has been well grown and carefully taken care of; timely planting, good field care and attention to storage brings you strong, healthy tubers that will grow and should give you the kind of blooms you strive for.

Get your orders in early as the supply of some of the varieties is limited and will be sold out soon. Orders will be held until shipping time for 25% with order and balance before shipment is made. Prices are f. o. b., Knox, Indiana. No charge for packing.

(Key to abbreviations: F. D., Formal Decorative; I. D., Informal Decorative; S. C., Semi Cactus; Min., Miniature; P. P., PomPons.)

# LEST YOU FORGET!

## Lucky Gardens' Screened Leaf Mold and Horticultural Peat Moss!

It is practically impossible to have perfect plants and flowers without some consideration and preparation of a properly conditioned soil. No soil is complete without additional organic matter being added for certain reasons, mostly to make it a fertile one, friable with aeration, increased moisture content without sacrificing good drainage and to stimulate bacteria action. Lucky Gardens' Leaf Mold and Peat Moss is the finest of these materials, thoroughly decomposed, purely organic, and ready for your instant use.

Two essential elements for soil conditioning, mixtures with your soil, top-dressing, and many other uses for better Gardens, Healthier Trees, Finer Lawns, Plants and Flowers of Quality.

Wholesale Prices, f. o. b., Knox, Ind.

### Screened Leaf Mold of Merit.
